

## The SAINT Keyboard Template

Help	Detail/Do	Accept/Exit	Quit	Retrieve	Store	Clr Field	Prev Field	Message	Menu Bar	Print	Clr Screen
F1	F2	F3	F4	F5	F6	F7	F8	F9	F10	F11	F12

### Notes:

The template indicates the function keys associated with each command – simply cut out and place (glue, bluetack, whatever) on your keyboard, above or below the function keys themselves.

The template as shown fits nicely onto a Viglen keyboard, but may not map exactly onto those of different manufacturers – try altering the cell size or fonts if this is the case. If you have a ‘split’ keyboard you will of course have to cut the template in half!
